Here at **Wagadoo®** we take pride in our workmanship which has made our name synonymous to quality excellence, durability and highly competitive customer service. You can always count on us when it comes to our commitment in our prompt delivery.

ORDER POLICY

A sketch of your desired uniforms has to be approved first. Then we will make pre-production sample and take pictures of the uniforms in all angles and send it to you via email for approval before we start production.

If you are thinking of buying initially one jersey to check the quality of our uniforms, we can send this sample to you for free; you'll only pay for the shipping cost amounting to \$55.00. For those ordered quantity should you push through ordering, you won't have to pay anymore of the shipping cost. Wagadoo uniforms are of premium quality and are done at strict quality standards. We understand your quality concern which is normal especially to our first time customers. Those who were satisfied are now our regular customers and eventually referred their friends to us.

Once the pre-production sample is approved, we require 50% down payment which will also serve as order confirmation. Since we do not stock more than enough materials because most of our orders are customized, our Finance department will only release the funds to buy the materials after we received the 50% down payment.

Production Turn Around time is three weeks after order confirmation.

OUR PRODUCTS

Specializing in Customized sports uniforms, Wagadoo maintains it's above far standards in the midst of uprising competition in the industry. Screen printed jerseys is priced lower than the more durable and better looking sewn on tackle twill. Price shall be available upon request.

We highly recommend to all clients embroidered tackle twill rather than screen printing. The tackle twill is handmade embroidery and will last longer than screen printing. Also uniforms in tackle twill stand out as premium products for just few dollars difference.

POLICY ON PAYMENT

As our Company's standard policy, we require 50% down payment for every order before we start production. This will also serve as customer's order confirmation from where our committed turnaround time henceforth commences.

Further, since we do not stock more than enough materials in our production area because most of our orders are customized, our production department will only purchase the materials after confirmation of down payment. In this case, our Finance Department is strict therefore in requiring customers for their down payment prior to commencing production operation. This is to prevent our company from shouldering the cost of materials should for some reason the customer cancels his order. The balance of 50% must be paid right before shipment of ordered quantity.

Payments can be made thru the following: our PAYPAL account. PAYPAL link shall be provided to the customer thru email, Local wire transfer or checks payable to cash deposited to our account at Wells Fargo Bank located in 1150 S Diamond Bar Blvd, California 91765. We will give you the bank account details once the order is confirmed.

ABOUT OUR MATERIALS

The Fabrics we are using for our jerseys, shorts and other sports uniforms are all 100% Polyester. Each fabric usage varies depending on the uniforms such as follows:

- **100% Polyester Steppiline Pro-mesh** used for reversible and non-reversible basketball jerseys and shorts. Also used for football jerseys.
- **Tri-Fit Cotton** used for reversible and non-reversible jerseys and shorts, shooting shirts, warm-up jackets, and very seldom on tear away pants.
- **100% Polyester Jersey Dazzle** used for tackle twill materials, football jerseys, jersey and shorts side panel, taping and insert piping, jersey and shorts uniforms, shooting shirts and warm-up jackets

- **100% Polyester Square Net** most commonly used in warm-up shooting shirts and tear away pants. Can also be used for jersey-shorts set.
- **100% Polyester Tri-Fit Shiny** used for jersey-shorts set, shooting shirts, warm-up jackets.
- **100% Polyester Semi-Cool** can be used for jersey-shorts set but always in double ply where the inner ply serves as lining.
- **100% Heavy Polyester (Double Face)** used on baseball jersey and baseball pants, used on Football pants
- **100% Polyester Air Cool** used on football jersey main body and basketball jersey & shorts.
- **100% Polyester Micro Jersey (Heavy Dazzle)** used on football jersey sleeves, shoulder & side panel, football snap pants, warm-up shooting shirt, basketball jersey & shorts set
- **100% Polyester 1X1** is the material we normally used for the shorts and tear away pants. However, we also used the Quinna, a thicker lining material which we apply for women's jerseys and shorts to prevent the under wears being seen-through.

However, on customer's advice, we also use Nylon materials such as those other football uniforms requiring **Nylon Spandex** and other game uniforms specifying Nylon as their main materials. This is a case to case basis which also requires above standard pricing.

Below are some paste-up photos of Sample Fabrics for your viewing:

Steppiline Pro-Mesh (S-1/S-24)

Semi Steppiline Pro-Mesh

Semi Cool (SC-1/SC-25)

(SS-1/SS-17)

Square Net (SQ-1/SQ-17)

Dri-Fit (Dfit-1/Dfit-19)

Tri-Fit Cotton (TC-1/TC-27)

Double Face (DF-1/DF17)

Single Face (SF-1/SF18)

Jersey(M) (JM-1/JM-1)

Spundy-Poly Lycra Substitute

NOTE: These are some of the more commonly used fabric materials. (SP-1/SP-20)
